Login Page Rational:

- We left space on top of the login page just in case we need to add additional features on latter
- This clean and simple for desktop but would just be the login part for mobile.
- The title and subtitle are written to speak to the practical CS major.

View Tasks Page Rational:

- For now its a list of functional tasks and dates
- This clean and simple for desktop but the task button would stack for mobile.
- White background for easy readability
